SOUTHLAKE CHAMBER TAKES HOME FOUR STATE-WIDE AWARDS

Southlake, TX – The Southlake Chamber raked in the media awards at the Texas Chamber of Commerce Executives annual conference. With a total of four awards, the Chamber placed in every category it entered, an impressive feat. Over 250 chambers of commerce across the state participate in this annual competition.

The Chamber received top honors in the Directory/Magazine division with its newly formatted directory that recently made its community debut. In the Marketing Campaign division, the Chamber received second place accolades. In the Website category and Map category, it received third place honors.

Chamber president Giovanna Phillips said, "Accepting these awards on behalf of our Chamber and our community was one of the proudest moments during my seven year tenure. It shows that our volunteer's and staff's hard work is appreciated both by industry peers and experts in the field." She continued on to say, "These honors confirmed that we are meeting our mission of capturing and sharing the Southlake spirit with others across the state, nation, and world!"

The Chamber's publications consistently bring home awards at this annual competition. Local company i5 Web Works designed the Chamber's website, and Original Production worked on the Chamber's directory and map that was produced in house for the first time this year.
